WE HELP PEOPLE THRIVE

Coleman Health Services

FY26 Annual Report

FY26

MISSION

Mission - We Foster Recovery, Build Independence, and Change Destinies.

VISION

Vision - We aspire to improve the health and mental wellness of our communities through compassionate, evidence-based services and support.

VALUES

Values - Collaboration, Compassion, Excellence, Inclusivity, Innovation, Responsiveness, Transparency

FY26 | **YEAR AT A GLANCE**

BRINGING HOPE WITHIN REACH FOR MORE OHIOANS

In Fiscal Year 2026, Coleman Health Services turned plans into places. We opened six new or expanded Ohio locations and grew into new counties at the invitation of local boards, bringing help closer to home for the people who rely on us.

FY26 GROWTH HIGHLIGHTS

BY THE NUMBERS

8 NEW OR EXPANDED LOCATIONS

3 COUNTIES WITH NEW OR EXPANDED SERVICES

2,700+ YOUTH & FAMILIES SERVED BY OHIORISE

$211,720 RAISED AT CHANGING DESTINIES

WHERE WE OPENED

WARREN (TRUMBULL CO.)
Trumbull Crisis Services (September 2025)

LIMA (ALLEN CO.)
Crisis Extended Stay Unit addition (January 2026)

CANTON (STARK CO.)
New, expanded behavioral health offices (April 2026)

ST. CLAIRSVILLE (BELMONT/HARRISON/MONROE COS.)
Behavioral Health Urgent Care (April 2026)

DANIELLE'S LIGHTHOUSE (RICHLAND CO.)
20-bed short-term rehabilitation facility (May 2026)

RAVENNA (PORTAGE CO.)
Portage Crisis Center (May 2026)

MARYSVILLE (UNION CO.)
New outpatient, crisis, and MRSS services (May 2026)

WEST LIBERTY (LOGAN/CHAMPAIGN COS.)
Expanded behavioral health services (July 2026)

A MESSAGE FROM OUR PRESIDENT & CEO

As we reflect on the 2026 fiscal year at Coleman Health Services, we are filled with gratitude for the people who make our mission possible and pride in how far our organization continues to reach across Ohio.

FY26 was a year of growth, connection and meaningful impact. From new locations and expanded services to strategic accomplishments and stories of transformation, Coleman continued to build on its commitment to helping people thrive.

This year, we celebrated the opening and expansion of services in communities throughout the state, including ribbon cuttings in Lima, Warren, St. Clairsville, and Ravenna, as well as the opening of new service locations in Union and Logan Counties. Each new location represents more than a new building or service area—it represents another opportunity to meet people where they are and provide support when and where it is needed most.

Our growth is important, but what matters most is what happens within those doors. Throughout this report, you will meet clients and staff whose stories bring our mission to life. From Employment Services to the continued impact of OhioRISE CME and our programs across Ohio, these stories demonstrate the difference our services can make.

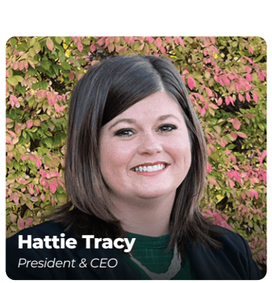

We are also proud to highlight *Changing Destinies 2025* and our *Unmute the Uncomfortable* symposiums in the Mahoning Valley and in Stark County. These events reflect Coleman's commitment to creating opportunities for people to be heard, supported and empowered.

Behind every accomplishment is a team of dedicated employees. Our strategic plan accomplishments demonstrate the progress we have made together, while the photographs submitted by staff from across the state offer another glimpse of who we are as an organization. Those images remind us that while the work we do is serious and often challenging, there is also creativity, joy, connection and plenty of fun among the Coleman team.

We extend our sincere appreciation to our clients and families, our employees, our board members, community partners, supporters and everyone who has contributed to Coleman's continued growth. Your trust and partnership make this work possible.

We are proud of what we accomplished together in FY26, and we look forward to the opportunities ahead. Most importantly, we remain committed to the people and communities we serve—and to continuing to create pathways toward healthier, more hopeful futures.

With gratitude,

Hattie Tracy
President & CEO

MANY SERVICES.

ONE COLEMAN.

Many organizations offer fragments of mental health, addiction, crisis, housing, employment, and supportive services. But only Coleman brings them together, taking a whole-person approach to care for children, adults, and families. Our programs and services reach 60 counties across Ohio*.

SERVICE OVERVIEW

- Addiction Services
- Mental Health Services
- Housing Services
- Supportive Services
- Employment Services
- Social Enterprises
- Crisis Services

SPECIALIZED SERVICES

- 9-8-8 Suicide & Crisis Lifeline
- OhioRISE
- I PROMISE HealthQuarters
- Mental Health First Aid & QPR
- Mobile Response and Stabilization Services (MRSS)

**Service availability varies by county. Contact Coleman for a comprehensive list of services by area.*

Coleman provides limited services in these counties through funding from that county's mental health board or the State of Ohio.

TOGETHER, WE BROUGHT NEW PLACES OF CARE TO OHIO

A year ago, several of these buildings were still construction sites. In FY26, they opened their doors to the people they were built for. Behind each one stands a community of donors, partner boards, and Coleman staff who believe everyone deserves help close to where they live. Together, we opened six new or expanded locations across Ohio, each one ready when someone needs help most.

NOW OPEN ACROSS OHIO

WARREN
(TRUMBULL COUNTY)

On September 30, 2025, we cut the ribbon on the **Trumbull County Behavioral Health Crisis Center** at 820 Pine Ave. SE in Warren, developed with the Trumbull County Mental Health and Recovery Board. The building also houses Coleman's relocated Trumbull County outpatient services and Sister Jean's Lighthouse, supportive housing for women and children operated by the Greater Warren-Youngstown Urban League.

LIMA
(ALLEN, AUGLAIZE & HARDIN COUNTIES)

On January 22, 2026, we celebrated the opening of the new **Crisis Extended Stay Unit** at the We Care Regional Crisis Center in Lima, together with the Mental Health and Recovery Services Board of Allen, Auglaize and Hardin Counties. The secure, nine-bed unit gives people leaving the hospital or crisis stabilization a place to continue their recovery close to home, instead of traveling outside the community for extended care.

CANTON
(STARK COUNTY)

On April 21, 2026, we welcomed the community to an open house at our new, expanded **Stark County behavioral health offices** at 800 30th St. NW in Canton. The space brings together psychiatry, counseling for adults and children, case management, guardianship, and employment support, with on-site parking and access to public transit.

ST. CLAIRSVILLE
(BELMONT, HARRISON & MONROE COUNTIES)

On April 28, 2026, we cut the ribbon on **Behavioral Health Urgent Care** in St. Clairsville. The site is also home to a new Crisis Stabilization Unit (CSU) for adults 18 and older: a voluntary, 24-hour setting where people in emotional crisis can receive support, supervision, and treatment as an alternative to hospitalization.

MANSFIELD
(RICHLAND COUNTY)

On May 18, 2026, we opened **Danielle's Lighthouse** in Mansfield, a 20-bed short-term rehabilitation facility that gives men and women a stable, supportive environment as they prepare for independent living.

RAVENNA
(PORTAGE COUNTY)

On May 26, 2026, the **Portage Crisis Center** opened at 3922 Lovers Lane in Ravenna. Its Crisis Receiving Unit (CRU) is open 24 hours a day, 365 days a year, with no barriers to access and no wrong door for services.

And the momentum continued: Ribbon cuttings for the new Crisis Receiving Units and Crisis Stabilization Units in Stark County and Paint Valley took place in FY27.

KNOW WHERE TO TURN – CRU VS. CSU

CRISIS RECEIVING UNIT (CRU)

- Open 24/7/365, with no barriers to access
- Assessment within 23 hours to determine the right level of care
- An alternative to a traditional emergency room evaluation
- Dedicated law enforcement and EMS drop-off for a faster handoff from first responders
- Accredited secure unit that can assess people on a voluntary or involuntary basis
- Crisis triage, crisis intervention, medication management, withdrawal support, safety planning, and referrals to the right next level of care

CRISIS STABILIZATION UNIT (CSU)

- A voluntary, 24-hour setting with support, supervision, and treatment
- An alternative to hospitalization, including pre- and post-hospital stabilization
- Medication monitoring and teaching, help with daily living, skills training, and therapeutic activities
- Connection to family, support systems, and community services
- Goal: stabilize each person and prepare them to return to their community

Both units serve adults.

LEADING THE FRONT LINE OF CRISIS CARE

Candy Pallante
Vice President, Coleman Intensive Crisis Services

To lead Coleman's growing crisis network, Coleman created a new position and hired Candy Pallante to oversee intensive crisis services across the state. Candy brings more than 30 years of experience in behavioral health. She began her career in a variety of roles at the Kevin Coleman Center in Ravenna, helped build the first behavioral health unit in the Summit County Jail, and later served as Vice President of Psychiatric Emergency Services at Portage Path Behavioral Health. Most recently, she helped a behavioral health agency open a Certified Community Behavioral Health Clinic (CCBHC) with a focus on building its child and adolescent program.

Candy holds a BA in psychology from Kent State University and a BSN from The University of Akron. She is a Licensed Social Worker and a Registered Nurse.

FY26 STRATEGIC PLAN ACCOMPLISHMENTS

INVITED IN: GROWING WHERE COMMUNITIES ASKED FOR US

In FY26, local mental health boards and state partners invited Coleman to bring new services and programs to their communities.

LOGAN AND CHAMPAIGN COUNTIES:

From Mobile Response to a Full Array of Care

After the state selected Coleman to expand Mobile Response and Stabilization Services (MRSS) in Logan and Champaign Counties, the Mental Health, Drug & Alcohol Services Board of Logan & Champaign Counties invited Coleman to broaden its presence and provide a full array of care. Today, residents have access to psychiatry, counseling, school-based therapy, crisis services, and more.

UNION COUNTY:

Answering the Call Alongside Police

In FY26, Coleman expanded to Union County at the invitation of the Mental Health and Recovery Board for Union County. Residents now have access to outpatient mental health and substance use services, including psychiatry, medication-assisted treatment (MAT), counseling, assessments, case management, and walk-in crisis services Monday through Friday. An active MRSS team serves youth across the county.

Coleman also embedded a therapist, Chelsea, with the Marysville Police Department. Monday through Friday from noon to 8 p.m., she dispatches with officers on calls where mental health may be the primary concern. She screens for safety, completes crisis assessments when appropriate, and connects people to the right resources, including inpatient care when needed.

DELAWARE COUNTY:

A Safe Place to Rebuild

Under contract with the Delaware-Morrow Mental Health & Recovery Services Board, Coleman operates two recovery houses in Delaware, Ohio: Liberty House, a five-bed home for men, and Helen House, a four-bed home for women. Residents facing substance use and mental health challenges can stay for up to one year while they connect with supportive resources and build the skills to live on their own. Recovery housing technicians staff both houses 24/7, offering support and keeping each home safe and sober.

BELMONT COUNTY:

The Road Home

Belmont County is rural, with no public transportation, limited public housing, and only one emergency shelter. Since launching our Rural Outreach Grant program in 2023, Coleman has helped more than 200 unhoused individuals secure safe housing and connect to ongoing services that support their wellness. The program has received strong feedback on its effectiveness during two site visits from the state's PATH Director.

HARRISON, JEFFERSON AND CARROLL COUNTIES:

Building Stronger Dads

The Ohio Department of Children and Youth (DCY), through the Ohio Commission on Fatherhood, selected Coleman as a provider for the state's Responsible Fatherhood Initiative in Harrison County, and soon after invited Coleman to serve Jefferson and Carroll Counties as well. The program's goal is to strengthen parent-child relationships and help fathers and father figures become nurturing parents.

In Harrison County, Coleman case managers lead group workshops at the Puskarich Public Library in Cadiz, so participants never have to leave the county to take part. Workshops use 24:7 Dad® A.M., an evidence-based curriculum from the National Fatherhood Initiative that builds self-awareness, self-care, and fathering skills while improving co-parenting and reducing the risk of child abuse and neglect. Fathers also receive person-centered support based on their needs, including employment services, reentry support, case management, and help with housing stability. The program is expanding to Jefferson and Carroll Counties.

MOBILE RESPONSE & STABILIZATION SERVICES (MRSS)

MEETING YOUTH WHERE THEY ARE

Mobile Response and Stabilization Services (MRSS) is a no-charge program for children, teens, and young adults age 20 or under who are experiencing a behavioral health crisis or emotional distress. Our trained teams go to them – at home, school, or another safe place – to help calm the crisis, make a safety plan, and connect them with support.

On September 2, 2025, MRSS regionalization went statewide. Coleman serves as the Regional Management Provider (RMP) for Regions 6, 14, 17 and 18.

STEERING MRSS STATEWIDE

Kelly MacMullin
Senior Executive Director of Mobile Response and Stabilization Services

Kelly MacMullin stepped into her role in August 2025, just weeks before MRSS regionalization went statewide. Over the past year, she has led every aspect of MRSS service delivery, not only in the regions where Coleman is the RMP, but also in Regions 7 and 11, where OhioGuidestone and Alta Care Group serve as RMPs.

Kelly's work spans recruitment and hiring, direct supervision of three teams, transitioning the Union County team from a subcontractor to Coleman, compliance, data tracking, and reporting to Mental Health Boards, the Ohio Department of Behavioral Health (ODBH), and the Ohio Department of Medicaid (ODM). She takes part in Center of Excellence meetings, manages data and documentation for fidelity reviews, and travels the state to meet with subcontractors, stakeholders, 988 providers, and others. Kelly has also served as a panelist and presenter for ODBH-led initiatives and local programs that raise awareness of the need for MRSS.

MOBILE RESPONSE & STABILIZATION SERVICES (MRSS)

WHEN EVERY MINUTE COUNTS

These two stories, from different counties Coleman serves, show how the mobile response model saves lives.

When this young man first came to MRSS in October 2025, he had spent nearly two years in residential care. Adopted, he has lived through significant trauma. Since then, he and his family have turned to MRSS a number of times, and their feedback has been consistent:

"MRSS is the only program that actually helps."

He recently connected with our new outpatient therapist, and that relationship is going well. He has needed inpatient care a few times, but each time he has been able to stay in his community, working and attending school, without another long-term placement away from home. Now 17, he has a lot to be proud of. We are proud of his success, and most importantly, he is proud, too.

"The Only Program That Actually Helps"

A CALM VOICE IN A MOMENT OF CRISIS

Police were called to a family's home and, with the parents' consent, asked MRSS to respond. When the team arrived, they found a young person sitting on the roof, refusing to come down and talking about suicide. The parents were distraught. This had happened often, they said, and nothing they had tried had helped. Their child had a long history of inpatient admissions and stays at the juvenile detention center.

Our clinician built rapport quickly and talked the youth down from the roof. Together with the family, they created a safety plan. The family agreed to stabilization services, which allowed the team to keep the youth safe in the community while connecting the family to more intensive care.

REAL STORIES OF RECOVERY AND HOPE

"THERE CAN BE BETTER DAYS"

BECKY'S STORY

I knew I had a mental illness as a child because I wasn't like other children. People labeled me as lazy, but I simply didn't understand what the teacher was saying. As I got older, my struggles turned to depression. I had suicidal thoughts and attempts. I knew I needed help. I have been to a lot of services, but nothing has helped like Coleman. Like we say, we want to be "Coleman Strong."

Having someone to talk to meant a lot. Whether it was peer support or counseling, there was someone to walk alongside me on the dark path I was on.

My message to others who are either experiencing mental illness or know someone who is: There can be better days. People need to understand that when someone is going through that darkness, it is very real. It is physically, emotionally, and spiritually hard. It is a living hell.

Without Coleman's support, I probably would be dead. If I could go back and talk to myself at the hardest part of my life, I would say:

"Becky, you are worth living for. Life is worth living. With Coleman's help, this darkness, too, shall pass."

On my 60th birthday this year, I took muffins to the Ravenna office, where I have received services for almost 20 years. I gave the staff a thank-you card, on which I wrote, "Between God and you, I am able to celebrate my birthday. Thank you to everyone who has helped me on my journey!"

988 SAVES LIVES...

ONE CALL AT A TIME

In FY26, Coleman's 988 call centers in Allen and Stark counties answered 21,569 phone calls. The Stark call center handled 15,448 texts/chats from around Ohio. While the numbers are impressive, the story of a single call shows why this work is impactful.

A LIFESAVING CALL: HOPE IN A MOMENT OF CRISIS

When an individual called the 988 Suicide & Crisis Lifeline, they were in immediate danger. With a loaded firearm in their lap, they shared that they had been struggling with suicidal thoughts for a long time. Exhausted and overwhelmed by emotional pain, they felt they could no longer go on.

Earlier that night, not wanting to cause their parents additional worry, the individual had called their parents' phone and left a heartbreaking voicemail. They expressed their love, apologized, and said they intended to end their life.

On the other end of the 988 call, a trained crisis staff member responded with compassion, patience, and reassurance. Through calm conversation and de-escalation techniques, the staff member helped the individual move into another room, away from the firearm, and remain engaged in the conversation.

Recognizing the seriousness of the situation, the staff member consulted with a supervisor, who directed them to initiate an emergency rescue. While continuing to provide emotional support and reassurance, the staff member used a second phone to contact law enforcement, sharing critical information about the individual's location and access to a loaded firearm.

As officers made their way to the home, the staff member gently explained why emergency assistance was necessary. The individual understood, remained cooperative, and allowed officers into the home. They willingly accompanied law enforcement for a crisis evaluation.

But the most powerful part of this story came approximately a week and a half later.

The individual called the 988 Lifeline again—not in crisis, but to express gratitude. They shared that the compassionate intervention had saved their life and, most importantly, that they were grateful to be alive for another day.

What began as a call filled with despair became a story of hope, connection, and a second chance at life.

This is the power of 988. One call. One compassionate response. One life saved.

THE RIGHT SUPPORT AT THE RIGHT TIME

Since launching in 2022, Coleman Health Services' OhioRISE Care Management Entity (CME) has grown significantly. Today, it serves more than 2,700 youth and families across six counties in Northeast and North Central Ohio.

With approximately 182 staff, the CME brings together families, behavioral health providers, schools, child welfare, juvenile justice, healthcare providers, and other community partners to coordinate care for youth with significant and often complex needs. Care Coordinators help families navigate multiple systems, connect youth to the services they need, and make sure everyone involved in a young person's care is working toward the same goals.

The results are meaningful. More than 98% of youth served by the CME remained in their home or community rather than moving to a more restrictive out-of-home setting, and the CME contributed to fewer hospitalizations and hospital readmissions during the year. By coordinating services and addressing needs early, the CME helps youth stay connected to the people, schools, and communities that matter most to them.

2,700+ YOUTH AND FAMILIES SERVED

EMPLOYMENT SERVICES & COLEMAN DATA SOLUTIONS

WORK THAT CHANGES DESTINIES

REP. EMILIA SYKES SEES OUR WORK FIRSTHAND

In August 2026, U.S. Rep. Emilia Sykes (OH-13) visited Coleman Data Solutions to meet with President & CEO Hattie Tracy and Ken Penix, Chief Officer of Coleman Employment Services. Together, they discussed Coleman's SourceAmerica/AbilityOne contracts and the employment services Coleman provides. Rep. Sykes and her team also met one of our AbilityOne employees, who has worked at Coleman for more than 30 years.

Coleman Data Solutions is a Coleman business enterprise that offers data management services. Part of its mission is to employ people with disabilities, and the AbilityOne program provides support for people with disabilities.

Hattie Tracy, Rep. Emilia Sykes, Ken Penix, and Jeff Kaloc, Congressional Relations Manager.

GATHERING FOR GOOD

Coleman's signature events bring our community together to raise vital support and spark the conversations that move mental health forward.

CHANGING DESTINIES 2025: ONE NIGHT, $211,720 FOR OUR CLIENTS

On September 18, 2025, nearly 200 guests gathered for Changing Destinies, Coleman's 37th Annual Benefit, and together raised $211,720 to support Coleman's services. Emcee Sherry Rose led the evening, and the 2025 Changing Destinies Awards honored David and Janet Dix and Huntington Bank.

Thank you to every sponsor, guest, and volunteer who made the night possible.

UNMUTE THE UNCOMFORTABLE: STAYING HUMAN IN AN AI WORLD

In the spring, Coleman's Unmute the Uncomfortable symposiums explored one of the most pressing questions in mental health today: what happens when the human experience meets the digital world. Under the theme The Human Algorithm: Connection in Crisis, national experts examined chatbot therapists, invisible bias, socially responsible AI, the intersection of mental health, social media, and policy solutions.

TRUMBULL COUNTY:

On May 7, 2026, more than 250 professionals, community members, and students gathered at the Eastwood Event Centre in Niles for the fifth annual symposium, presented in partnership with the Trumbull County Mental Health and Recovery Board. Former WNBA player and poet Imani McGee-Stafford delivered the keynote, sharing her lived experience and advocacy for mental health and the importance of connection and community. The Honorable Judge Carla Baldwin moderated, with speakers Dr. Randal Pinkett of BCT Partners, Dr. Stevie Chancellor of the University of Minnesota, and Dr. Zainab Okolo of The Jed Foundation.

Attendees earned continuing education credits, and over $84,000 raised will benefit Coleman clients in Mahoning and Trumbull Counties.

STARK, SUMMIT, PORTAGE COUNTIES:

On May 21, 2026, the same panel of national experts joined 140 attendees at the Embassy Suites in North Canton, with Judge Carla Baldwin moderating, and the symposium raised nearly $50,000. The keynote speaker was Dr. Aditi Nerurkar, a Harvard physician, speaker, and television correspondent, who presented "Bot Brain: How to Stay Human in an AI World."

390+ ATTENDEES ACROSS TWO SYMPOSIUMS

NEARLY **$50,000** RAISED IN STARK, SUMMIT AND PORTAGE COUNTIES

AND OVER **$84,000** RAISED IN THE MAHONING VALLEY

THE PEOPLE

BEHIND THE CARE

Every story in this report begins with a Coleman employee who showed up. Across Ohio, Coleman employees bring our mission to life every day. Here's why they choose Coleman.

COLEMAN CIRCLE OF CARE

The FY26 Coleman Circle of Care honors the individuals, families, businesses, and foundations who make Coleman a philanthropic priority each year, whether through our signature events, gifts of goods and services, or contributions of $250 or more. This year, your generosity helped open new places of care across Ohio and helped people in every community we serve find their way toward recovery. Thank you for standing with us as we foster recovery, build independence, and change destinies.

WE HELP PEOPLE THRIVE

At Coleman, we are committed to fostering recovery, building independence, and changing destinies for individuals, families, and businesses in our community. Whether you're seeking services for crisis management, mental and behavioral health, adult care, employment, or another concern, we are here to help you.
